# Solutions for Blinds

Let there be light!

HOME  
MOTION BY

somfy®

**SOMFY**, the french manufacturer, designs and develops motors and controls for openings and closures of homes. All Somfy solutions have the same aim: to offer their users comfort and security while making life easier at home. **All SOMFY motors are guaranteed for 5 years.**

Aluminium or wood slat Venetian blinds, folded, tented, plastic or fabric roller blinds matching your interior decorations, all contribute to the atmosphere of your home. Not only do they add texture, style and color but they also create environment with natural light which are delicately filtered. Good quality blinds help control heat transfer, reduce glare and help protect your furniture and floor coverings from fading.

## **Maximise your blinds potential.**

**Install a SOMFY motor and control system and you will enjoy:**

### **➤ Greater convenience:**

Forget climbing over the furniture or having to get onto the ladder to manually open or close your blinds. Sit back, relax and enjoy touch of a button convenience and control with Somfy automation system.

### **➤ Greater durability:**

Forget unsightly manual rods or cords and the potential danger these cords pose around small children. Replacing manual cord handling with smooth motorised control ensures a longer life to your blinds.

### **➤ Privacy and control:**

Create the ambiance you want to match your setting. With the touch of a button control, you can choose to have full light, partial light or close your blinds completely for absolute privacy.

# SOMFY control options for blinds

## Individual control

### Operate just one blind at a time

It's easy to operate your internal blind. One button lowers the blind, another raises it, and the middle button stops it. You can even use the remote control to operate your blind from anywhere in or around your home.

Telis 1  
RTS Silk

## Master control

### Control your blinds as you wish

The central control point and the multi-channel remote control allow you to control up to 4 blinds in unison or separately. Telis 4 RTS combines the flexibility and convenience of remote control with individual, grouped and centralized control for your blinds.

## Upgrade to RTS

Radio Technology Somfy™

It's easy to upgrade your existing wired system with **Radio Technology Somfy™** control and get the added convenience of a remote control and group control of all your internal blinds with no need for wiring between the control switch and the blind and thus, with no disturbance to your interior design.
